DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action or the MPEP.

Double Patenting

Claims 1-15 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-15 of U.S. Patent No. 6,623,461. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of this application encompass the claims of the parent.

It is becoming common to delay filing the terminal disclaimer(s) until all the claims are indicated as allowable. However, this places a burden on the examiner and the USPTO to conduct additional paper processing, docketing, and examination. Accordingly, applicant must file the terminal disclaimer(s) in response to this office action or supply substantive arguments against the double patenting rejection(s).

Claim Rejections - 35 USC § 102

Claims 1, 3, 6, 8, 9, 11 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by D'Alo et al., US 4,326,519. Note elements 56 and 70 which anticipate the claimed first and second tabs. Regarding claim 8, the fixture is anticipated by tubing 74. Regarding claim 9, the ramped surface is surface 56. Regarding claim 11, the protrusions are surface members 36, 38. It is noted that D'Alo is not a shielding device. Reference numeral 12 is an indwelling catheter, not a shield. The catheter is supposed to slide right off the needle, exposing the needle. However, nothing in the

Art Unit: 3762

claim distinguishes from this. Applicant should add language to clarify that in the extended position, the needle shield remains over the needle.

Claim Rejections - 35 USC § 103

Claims 7 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over D'Alo '519. See the comments set forth in the parent application regarding these claims.

Allowable Subject Matter

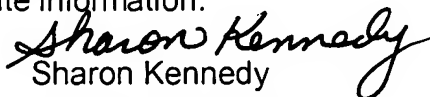

Claims 2, 4, 5, 10, 12 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims, and if a terminal disclaimer as suggested above were filed.
